

Doing a handover to school girls is **definitely** the highlight of my working life. I love to meet the girls, to chat to them and see their reactions when they receive a pack and know that they never have to suffer the humiliation of using socks, rags, paper etc when they have their periods or worse still, missing school.

My thanks to all the ladies who donated money and made the day soo special - special thanks to Carla, Annelot and Tracy who shared the day with us. And the ladies from ChildLine Orange Farm who facilitated the handover.

They have promised to share their photos with us. Many thanks for everything, Sandra
